THE
WOODEN SPOON
PRESERVING COMPANY

‘Crafting preserves with tradition, quality, and natural ingredients.’

Founded almost 50 years ago, The Wooden Spoon Preserving Company embarked on a journey rooted in the desire to craft unique traditional and contemporary preserves using natural ingredients.

Nestled in Kent’s picturesque village of Wye, our artisanal production takes place in a converted Kentish Oast House.

The Wooden Spoon Preserving Company exclusively sell products made on-site.

Our diverse range includes extra jams, marmalades, chutneys, and more. Especially of interest during the festive season are our Fruits with Liqueur range, available in a selection of sizes and stunning glassware. They make the perfect gift for any food lover.

Rosemary's

Since discovering that she, herself, has diabetes, Rosemary has been a keen advocate of a reduced sugar diet that is still packed with flavour.

Being a fan of The Wooden Spoon Preserving Company, Rosemary decided to help develop her own range to show that you don’t need sugar to have a great tasting dish.

Ouse Valley Foods was founded in 2004 by Julian Warrender and are renowned for their innovation and creativity, making award-winning Jellies, Chutneys, Jams and Marmalades.

Upon Julian’s retirement this year, Ouse Valley foods have been brought into the Wooden Spoon family which allows us to showcase their amazing products.
